SPECIAL REQUIREMENTS

Illustration of Typical Plan & Profile for Drive

- (1) Extend pipe as necessary to obtain a 4 : 1 or flatter slope.
- (2) Size, type, and grade of pipe to be specified by County Engineer.
- (3) Existing surface flow to remain. Water cannot be diverted to county right-of-way.
- (4) No headwalls to be constructed on pipe ends.
- (5) No brick or other hazardous type mailboxes allowed on right-of-way. (See County mailbox regulations). All driveways should have turn-around pad off right-of-way to prevent backing onto County Road.
- (6) All disturbed right-of-way to be regraded to county specifications.
- (7) This drive to serve a single family dwelling only and may not be converted to any other use without approval of the County.
- (8) The permit must be displayed at the site and driveway plainly marked prior to inspection and accepted by County.
