Temporary Power Request Form*

Date of Request: _____ Permit #: _____

Project Address: _____ Lot/ Suite #: _____

Electrical Contractor's Name: _____ License #: _____

Electrical Contractor's Address: _____

Contact Phone #: _____ Fax #: _____

Electrical Service Provider: Georgia Power Jackson EMC Other _____

Jackson County does allow for the installation of a meter to assist with construction activity, but only after an inspection by the County's Protective Inspections Department has confirmed that:

1. All electrical service and control equipment is set, wired, fused, bonded and grounded.
2. All wall and ceiling coverings have been installed.
3. The required disconnects are in place and operational.
4. All outlet devices and switches are connected or made safe.
5. The electrical system is ready for connection from an electric service provider.

The purpose of this inspection is to allow the installer to check out all installed electrical systems and equipment for proper and safe operation per its listing prior to the final inspection. As well as to allow the HVAC system to be tested, balanced and checked for proper and safe operation per its listing prior to final inspection. Only after the contractor demonstrates that all of these requirements have been met will a written release for the electrical service be provided to the applicable electrical service provider.

NOTE: The owner or contractor must make application with the applicable electric service provider in order for the service to be made. The electric service provider WILL NOT set the meter if their specific requirements have not been met.

I also hereby relieve the County's Protective Inspections Department from any liability for damages or loss in association with the connection of the power to this structure.

Electrical Contractor's Signature: _____ Date: _____

***THIS TEMPORARY POWER APPROVAL DOES NOT ALLOW FOR THE OCCUPANCY OR USE OF THE BUILDING WITHOUT A FINAL INSPECTION AND THE ISSUANCE OF A CERTIFICATE OF OCCUPANCY. THE APPROVAL FOR TEMPORARY POWER CAN AND WILL BE REVOKED IF ABUSED OR LIFE SAFETY ISSUES BECOME APPARENT. THIS IS A TEMPORARY POWER RELEASE FOR A PERIOD OF 30 DAYS. ONLY THE BUILDING OFFICIAL CAN APPROVE AN EXTENTION.**
