

DEPARTMENT OF PUBLIC DEVELOPMENT

Planning Division

RZ-16-20

Staff Report

Planning Commission Public Hearing: December 15, 2016 6:00pm

Board of Commissioners Public Hearing: January 16, 2017 6:00pm

The following report constitutes the assessment and evaluation by Planning Division staff on the above mentioned request.

Applicant: Greenland Opportunities, LLC

Property Owner: Melinda Nelson, Sarah Ferguson, and William Tanner

Requested Zoning: LI (Light Industrial)

Existing Zoning: A2 (Agricultural Rural Farm District)

Proposed Use: Vehicle Processing Plant

Existing Use: Vacant Agricultural

Property Location: 0 Brown Road

Zoning Map and Parcel: Map 010, Parcel 034

Acreage to be Rezoned: 12.15 acres

Future Land Use: Industrial

Character Area Designation: Urban

Board of Commissioners District: 2 (Commissioner Chas Hardy)

Zoning of Surrounding Property: North: A2
South: A2
East: A2
West: A2

Land Uses of Surrounding Property: North: Residential
South: Residential
East: Vacant
West: Vacant

Overview of the Request: The applicant is requesting approval to rezone the subject tract from A2 to LI in order to combine with four other parcels and use the property as a vehicle processing plant for Southeast Toyota Distributors.

Utilities & Infrastructure

Transportation: The property gains access off of Brown Road with 40 feet of right-of-way.

Water & Sewerage: According to a letter received from the City of Commerce, the City of Commerce will be able to provide water and sewer to the property. The City of Commerce will not be responsible for bringing sewer from the site to their connection. Water will be provided on the Highway 334 side.

Wetlands/Watershed Areas: The tract is located within the A.C.C. Local Intake, North Oconee River Watershed, the Upper Oconee River Watershed, the Jackson Small Watershed, and the Sandy Creek Watershed. The tract is not located in a groundwater recharge or floodplain area. According to the National Wetlands Inventory, there are not wetlands on the subject tract.

MS4 Urbanized Area: The property is not located within Jackson County's MS4 Urbanized Area.

DRI Analysis: Not applicable.

Traffic Study: Staff has received and reviewed the traffic study that was prepared by John Karnowski of CALYX Engineers and Consultants. For the proposed median cut on Highway 441, a GDOT permit will need to be obtained. In addition, any entrances along Highway 334 would also need to have a GDOT permit.

Campaign Contributions & Gifts: The applicant and owner has submitted the required affidavit and disclosed no contributions were given to any commissioner over the last 2 years.

Proffered Conditions: Not applicable.

Sphere of Influence Comments: This property is within the City of Commerce's sphere of influence. Notice was sent to David Zellner on November 21, 2016.

Property Development History: The property has not been rezoned since the inception of zoning.

Comments from Reviewing Agencies:

Georgia DOT: Any new driveways must be permitted.

Road Department: Any new driveways must be permitted and meet the separation requirement of the Jackson County Unified Development Standards.

Providing Water and Sewage Authority: City of Commerce will be able to provide water and sewer.

Rezoning Analysis: This analysis is based upon the "Standards for Rezoning Consideration" as set forth in Section 1205(e) of the *Jackson County Unified Development Code*.

The Planning Commission and the Board of Commissioners shall consider the following standards in considering any rezoning proposal, giving due weight or priority to those factors that are appropriate to the circumstance of each proposal:

- a. ***Is the proposed use consistent with the stated purpose of the zoning district that is being requested?*** Yes.
- b. ***Is the proposed use suitable in view of the zoning and development of adjacent and nearby property?*** Yes. Several industrial developments are adjacent to Highway 334.
- c. ***Will the proposed use not adversely affect the existing use or usability of adjacent or nearby property?*** Yes. Industrial buffers will be put in place between the surrounding uses to avoid negative impacts.

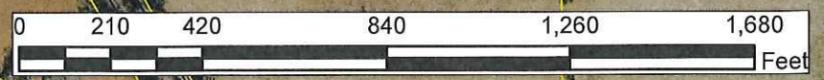

- d. **Is the proposed use compatible with the goals, objectives, purpose and intent of the Comprehensive Plan?** Yes. The request is consistent with the urban character area designation and industrial future land use designation.
- e. **Are there substantial reasons why the property cannot or should not be used as currently zoned?** Yes. As currently zoned, the proposed use would not be allowed within A2 zoning.
- f. **Will the proposed use cause an excessive or burdensome use of public facilities or services, including but not limited to streets, schools, water or sewer utilities, and police or fire protection?** No. Public water and sewerage will be made available by the City of Commerce.
- g. **Is the proposed use supported by new or changing conditions not anticipated by the Comprehensive Plan or reflected in the existing zoning on the property or surrounding properties?** No.
- h. **Does the proposed use reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property?** Yes.

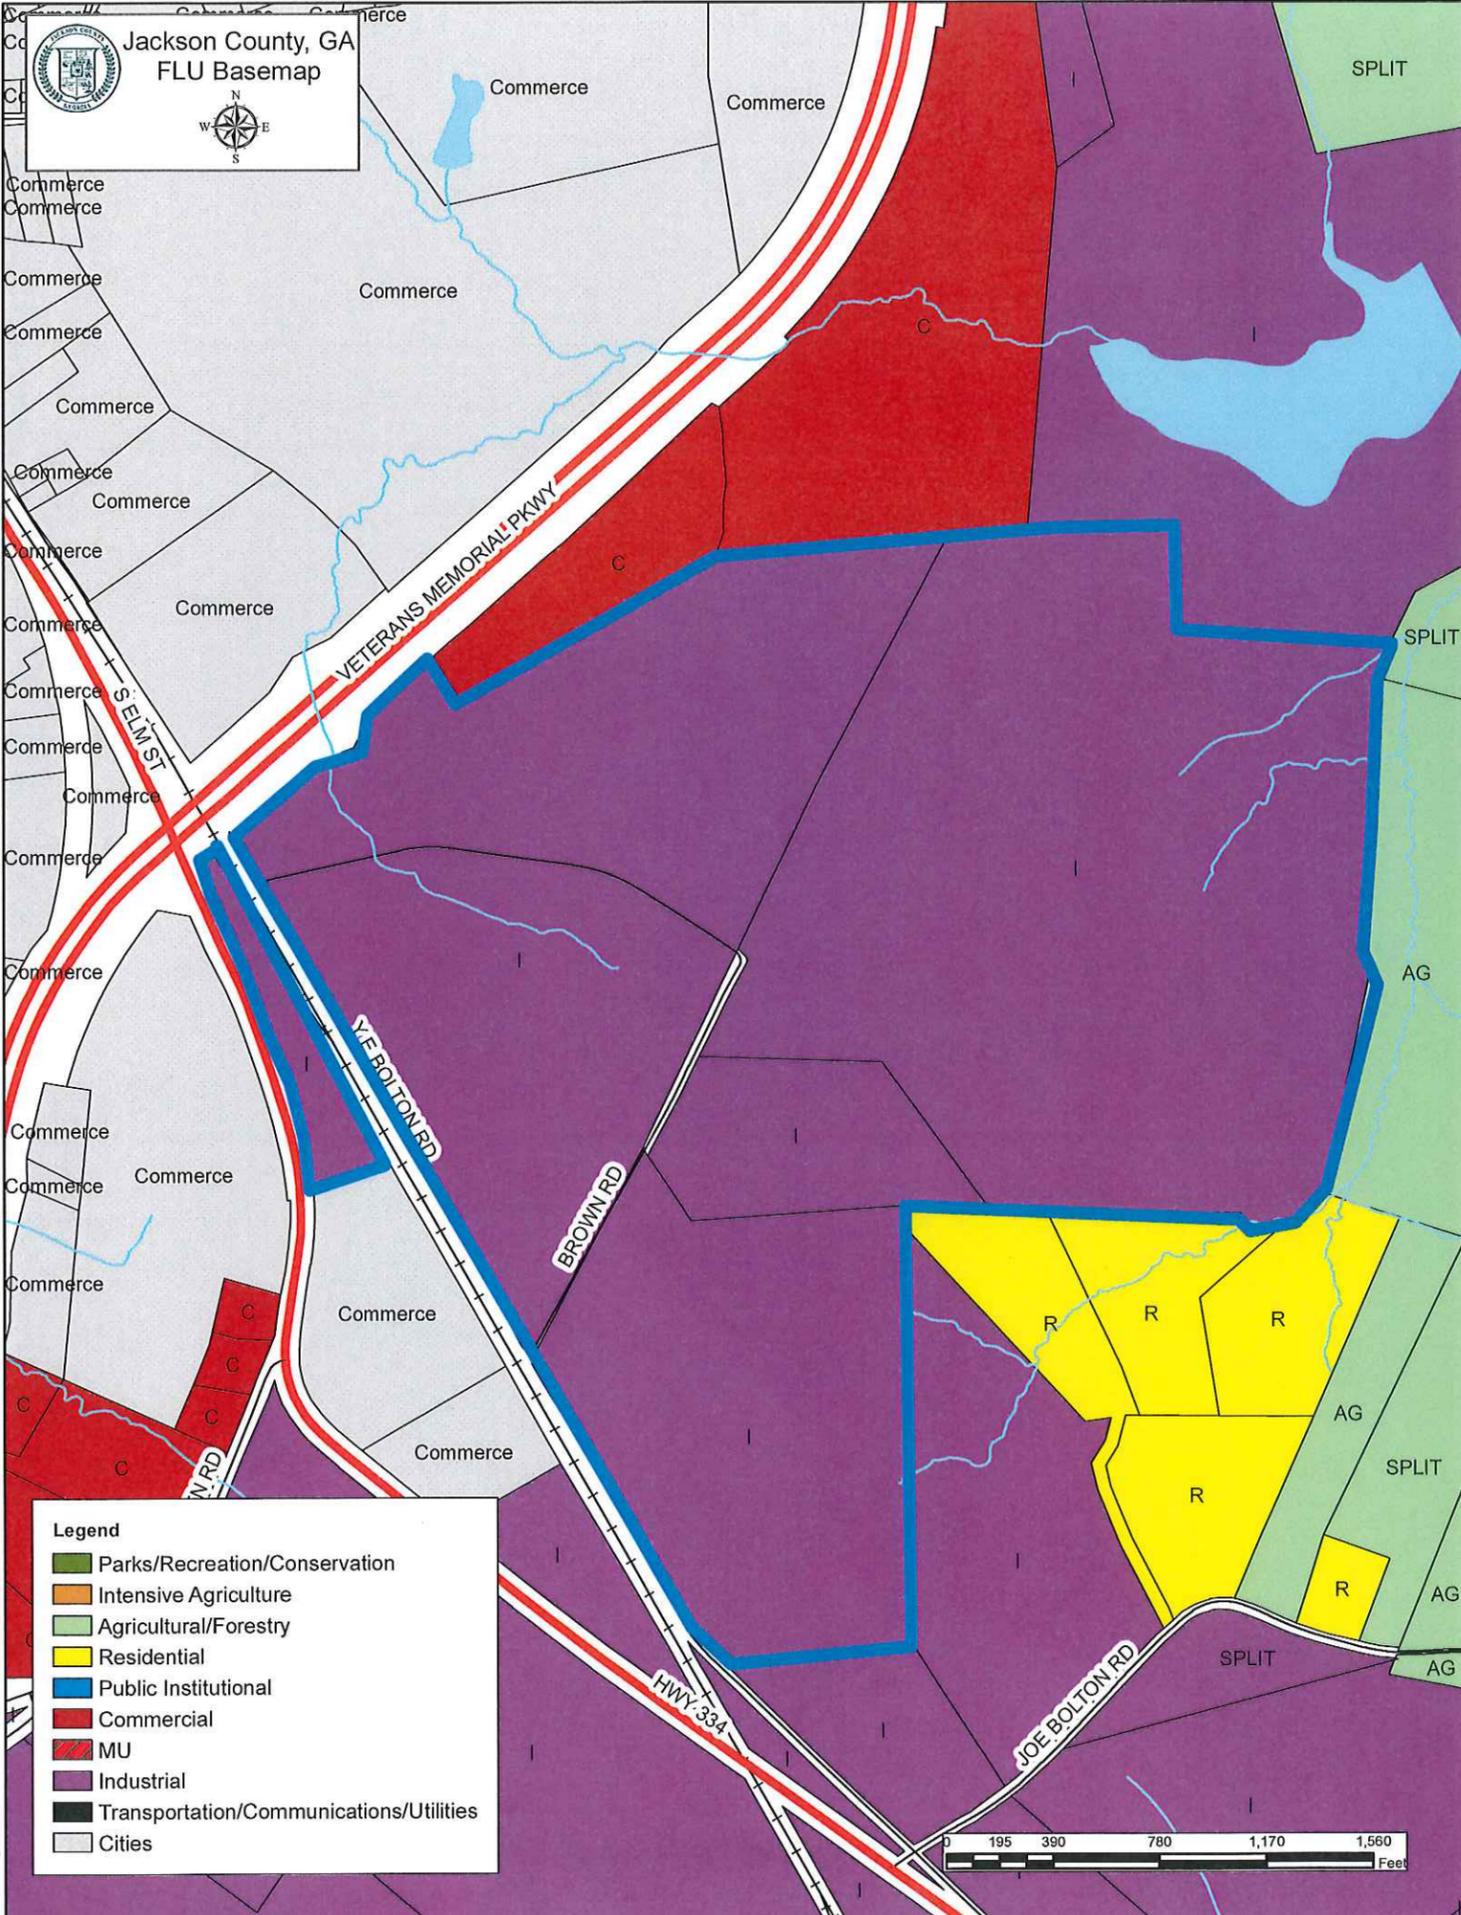

Conclusion: The proposed rezoning meets the applicable and appropriate criteria for rezoning.

General Notes: (such notes are for reference and are not to be considered exclusive of all Jackson County Development Standards that will apply):

- Building permits must be applied for and approved for additions or renovations.
- All new driveways must be approved by Jackson County Road Department.
- For this proposed development, this parcel will be combined with four others contingent upon the total five parcels being rezoned.
- This proposed development will fall within the East Jackson Overlay District.

Planning Staff Recommendation: Approval. Staff recommends that the Planning Commission recommend *approval* of this request.

Re: Rezoning Letter of Intent -- Georgia Highway 334 & U.S. Highway 441

To Whom It May Concern:

Development Overview. Greenland Opportunities, LLC/Southeast Toyota Distributors, LLC, intends to develop a vehicle processing plant on five parcels of land located at the intersection of Georgia Highway 334 and U.S. Highway 441. The proposed project will have six buildings comprising approximately 330,000 square feet on 253.42 acres of land. The development will have capacity to accommodate 90 rail cars, receiving vehicles from Kentucky, Mississippi, Indiana, Texas, and Ontario. Using the newest technology and most efficient practices, this project will create new jobs in Jackson County.

Southeast Toyota Distributors. Southeast Toyota Distributors is the world's largest independent distributor of Toyota vehicles. The company distributes vehicles, parts, and accessories to 176 independent Toyota dealers in Georgia, Alabama, Florida, North Carolina, and South Carolina. Sales in the southeast surpass Toyota sales in every other part of the United States. Last year, Southeast Toyota Distributor's parent company, JM Family Enterprises, Inc., implemented a company-wide minimum wage raise to \$16 an hour for all of its associates, many of whom reside in Jackson County.

Existing Commerce Facility. In 1988, Southeast Toyota Distributors broke ground on its location in Commerce, Georgia. That facility was built to accommodate 40 associates processing vehicles for distribution to dealers in Georgia, Alabama, North Carolina, and South Carolina. Southeast Toyota Distributors now employs 180 associates and 30 independent contractors at this location who prepare nearly 150,000 vehicles for delivery and install over 600,000 accessories each year. Vehicle accessories, such as leather seats, roof racks, alloy wheels, and security systems, are ordered by auto dealerships throughout the region and installed at this location. Southeast Toyota Distributors has exceeded its capacity at its current location and is limited in the growth and flexibility of its operations. To continue operating with the best and most efficient practices and processes, the company has identified the opportunity to expand its operations to another location to meet its current and future business needs.

Community Involvement. Southeast Toyota Distributors has remained committed to giving back to the community for decades. It has supported meaningful programs and partnerships in four main areas: empowering families and nurturing children, providing for essential needs, promoting education, and preserving the environment. Recently, Southeast Toyota has been involved with campaigns to raise capital for the Commerce and Jefferson Boys & Girls Clubs, participated in the endowment fund for the Jackson County Community Outreach, and assisted with the Downtown Commerce Clean-Up.

Rezoning. In order to expand its operations, Southeast Toyota Distributors seeks to rezone four parcels of land currently zoned as Agricultural Rural Farm District (A-2), and one parcel currently zoned as Highway Retail Commercial (HRC), to Light Industrial (LI). The parcels and their current zoning classification are as follows:

1. 010 033 (A-2);
2. 010 034 (A-2);
3. 010 035 (A-2);
4. 010 051 (HRC); and
5. 011 005 (A-2).

Greenland Opportunities, LLC/Southeast Toyota Distributors will also separately seek to amend the Jackson County 2020 Future Land Use Map. It will seek to reclassify parcel number 010 051's current future land use as Industrial. In terms of site density, the proposed facility's 330,000 total square feet amounts to roughly 1,309 square feet of development per acre of land.

Proposed Development. The proposed project represents an investment of over \$30 million in Jackson County. It will have six buildings that will comprise approximately 330,000 square feet of space, and six rail spurs. The proposed buildings include:

- a two-story administrative building containing administration offices, a state-of-the-art medical center, and a credit union (15,000 sq. ft.);
- a one-story accessory installation building containing open production space, a cafeteria, meeting spaces, and a state-of-the-art recreation facility (167,000 sq. ft.);
- a one-story pre-delivery inspection building containing drive-through inspection bays with recessed pits, offices, and break room areas (61,600 sq. ft.);
- a one-story auto body paint building with state-of-the-art spray booths capable of painting two-tone auto body schemes, minor touch-ups, wheel enhancements, and bed liners (49,000 sq. ft.);
- a one-story Southeast Transportation Systems building containing management offices, break rooms, locker rooms, and a truck maintenance area (24,200 sq. ft.); and
- a one-story technical operations center (15,000 sq. ft.).

The site will also provide the ability to increase capacity and improve overall efficiency by establishing a new workflow for processing vehicles from arrival to shipment.

Environmental Efficiency. The proposed project will be constructed to meet numerous U.S. Green Building Council Leadership in Energy and Environmental Design (LEED) standards. Some of these features include:

- daylight harvesting, which utilizes as much daylight as possible to reduce energy consumption;
- motion sensors on all lighting systems that activate lights only where associates are working;
- reducing water consumption and use through high-efficiency, low-flow plumbing fixtures;
- selecting interior and exterior building materials that consist of high percentages of recycled materials; and
- reusing building materials during construction.

Infrastructure. The City of Commerce will provide water and sewer to parcel number 010 033. It will provide a water and sewer tap at the end of the right-of-way that connects to that parcel. Water will be provided on the side of the property adjoining Highway 334, and sewer will be provided on either the Highway 334 side or the Highway 441 side, depending on the depth of the sewer line. Transportation will be able to access the property using a curb cut on Highway 441. The Applicant will apply to the Georgia Department of Transportation for a median cut and traffic signal on Highway 441 to allow access to the site from both lanes of Highway 441.
